COMPLETED ASSEMBLY

Cleaning & Packing:

- For Cleaning Parts, use a **MILD NON-ABRASIVE** cleanser and soft cloth or paper towel.
- Keep exhibit components away from heat and prolonged sun exposure. **Heat and UV exposure will warp and fade components.**
- Retain all provided packing materials. All provided packing materials are for ease of repacking and component protection.

Disassembly:

- For loss prevention, tighten all set screws and locks during disassembly.

SEG Graphic Installation:

- 1) Locate channels along the edges of extrusions
- 2) Insert graphic corners first into channels, then center point of graphic into channels. Allows for proportional fit around the perimeter of the extrusion.
- 3) Working from center to corner, slide silicon edge on graphic into channel.
- 4) After all edges of graphic have been inserted into channels, step back and assess graphic fit. Make adjustments where needed.
